**THE HUSTLE-FREE  
SUPPLY & FIX**

ROYAL LEGACIES

YOUR STATION | YOUR MISSION

## WHAT IS THE HUSTLE FREE S&F

The Hustle-Free S&F is a simple, predictable, all-inclusive roofing solution designed to remove the stress, uncertainty, and financial surprises that usually come with roofing projects.

Instead of receiving a traditional quote that can change as the project progresses, you get one fixed price that covers everything from start to finish.

It's designed for homeowners, companies, and contractors who want:

- A clear cost upfront
- No unexpected expenses
- A hands-off, professionally handled project
- A guaranteed finished roof without logistical headaches

---

### Why This System Exists

In the carpentry industry, customers often face:

- Sudden material shortages
- Increases in labour or material prices
- Changes in quantities
- Delayed timelines
- Disagreements around cost variations

The Hustle-Free S&F removes these pain points.

---

## HOW THE HUSTLE-FREE S&F WORKS (Expanded Explanation)

### 1 One Fixed Price — No Surprises

Once you tell us your Roof ,Ceiling or Kitchens needs (material type, colour, design, building plans), we calculate a single fixed price.

This price never changes, even if:

- Material prices increase
- Extra labour is required
- Quantities were underestimated
- There are logistical or supply issues

**What you agree is exactly what you pay.**

---

### 2 Zero Surprises — We Cover All Unexpected Costs

Any unforeseen issues that typically cause price changes are handled by us, not the customer.

This includes:

- Additional accessories
- Extra screws, nails, flashings, timber, trusses
- Any labour overruns
- Transport delays or material shortages
- Weather-related project extensions

You are shielded from risk. We absorb the shocks.

---

## 3 Guaranteed Quality & Compliance

Your project is completed by certified roofing professionals using premium-grade materials that match or exceed industry standards.

We guarantee:

- Proper installation
- Correct alignment and finishing
- Structural stability
- Neat, professionally finished edges & flashings
- Warranty compliance

Where applicable, this comes in your written agreement.

---

## 4 Lay-By Accepted — Flexible Payment Options

Customers can secure their project even if they're not ready to begin immediately.

They can:

- Pay gradually
- Lock in the price early
- Avoid future price increases
- Start the project when they're ready

This option makes roofing, Ceiling or Kitchen accessible and financially manageable.

---

## 5 Complete Hustle-Free Service (We Handle Everything)

From the moment the customer chooses S&F, they no longer have to worry about:

- Coordinating deliveries
- Managing labour
- Supervising the installation
- Scheduling timelines

We manage the entire workflow, ensuring a clean, finished hand-over.

The customer only needs to approve the final result.

---

## 6 Your Vision, Delivered

Customers often worry that contractors won't understand the aesthetic they want.

We solve that by allowing customers to specify:

- Roofing material type
- Colour
- Finish (matt, gloss, textured)
- Profile style (Chromadek IBR, Premium Sheets, Concrete Tiles , etc.)
- Custom design preferences

We translate their idea into a fully installed, polished Roof ,Ceiling or Kitchens.

---

## TRADITIONAL QOUTING OPTIONS

For those who prefer the standard approach, we can still provide a detailed roofing quote that includes all material quantities, labour requirements, and itemised prices. This gives you a clear breakdown of the full scope of work before the project begins, allowing you to review every component and make adjustments as needed. Simply share your plans or measurements, and we'll prepare a comprehensive estimate tailored to your project.
